

3D NAND FLASH

Cervoz Titan Series

Intelligent SLC Caching

End-to-End Data Protection

Advanced LDPC ECC Engine

Cervoz 3D NAND SSD Product Line in 2019

With the growing demand for the huge amount of Data Calculation, Edge Computing, Big Data, IoT and IIoT. Cervoz reveals 3D NAND SSD product line to fulfill this upcoming requirement of the industrial market.

Cervoz Titan Series adopt industrial-grade 3D TLC NAND. The firmware optimized for the industrial application, SLC Writing Cache to increase performance and endurance, End-to-End Data Protection to detect and correct any possible error to enhance reliability. Come with Cervoz FlashMonitor software for comprehensive monitoring of real-time SSD health status.

Product Features

Form Factor :
2.5", mSATA, M.2 2242/2280

Intelligent SLC Caching

Industrial-Grade 3D NAND

End-to-End Data Protection

Capacity : 64GB ~ 1TB

Advanced LDPC ECC Engine
