

**M.2 NVMe SSD**  
Ultra-thin Storage

**nvm EXPRESS Gen3x4**

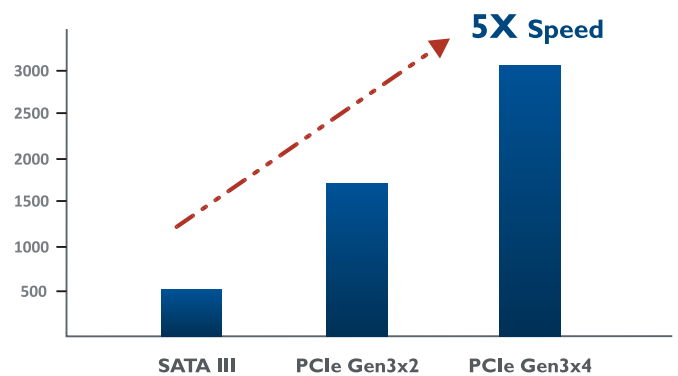

## Unleash Performance for Industrial Storage - Cervoz T405 M.2 NVMe Solution

With future-ready, scalable NVMe architecture, Cervoz T405 M.2 NVMe SSD supports edge computing market and higher performance storage applications. Cervoz T405 M.2 2280 NVMe is compliant with **PCIe Gen3x4** standards. The sequential read/write speed is 5 times than SATA III.

M.2 2280

Unit: mm

\*The speed may vary due to host hardware, software, usage and storage capacity.

**Supreme Transmit Speeds**

**Industrial Grade 3DTLC NAND Flash**

**High Reliability Design**

**Capacity up to 2TB**

**Overcome Overheating Heatsink**

To avoid overheating cause performance affected and shorten storage longevity, Cervoz M.2 2280 heatsink which can efficiency to accelerate heat dissipation.

M.2 2280 Heatsink
